Would you guys like to take the lead or have HQ? Seems like it may be a R8 question.

Subject: Tour of wastewater treatment plants near Denver

Meilissa,

Greetings. I'm reaching out to you in hopes of scheduling a tour of two mine waste water treatment plants near Denver, namely the Argo Tunnel Wastewater treatment plant in Idaho Springs and the Leadville Mine Waste Tunnel plant in Leadville. We're interested in writing a story/producing a video piece about these solutions that have been implemented by the EPA near Denver. As you know, the idea of a wastewater treatment plant has been bandied about in Silverton, just downstream from the Gold King Mine that spewed millions of contaminated water that flowed through three states.
